Master of Arts Degree
Major in Women's and Gender Studies

The M.A. in Women's and Gender Studies is interdisciplinary in nature and is under the jurisdiction of the College of Social and Behavioral Sciences.

Students interested in this program must submit a completed Application for Admission to Graduate Study and should refer to their MyUNIverse Student Center To-Do list or contact the Director of Women's and Gender Studies for any other application requirements. Graduate information and application for graduate admission can be found at https://admissions.uni.edu/application.

Admission to the program is competitive. Detailed information on admission requirements and procedures may be obtained from the Women's and Gender Studies office.

The Graduate Record Examination (General Test) is not required for admission to the program.

The Women’s and Gender Studies curriculum is designed to meet the needs of students who strive for analytic clarity and rigor in gender-focused research. Students may employ the skills in reflective and critical analysis as well as the broad base of knowledge that they obtain in the program to

1. prepare for a Ph.D. program with a disciplinary or interdisciplinary focus on gender or,
2. prepare for a career in the public or private sector in the areas of gender and wellness, gender and violence prevention, or another area based on student interest or,
3. satisfy strong intellectual interests and curiosity while pursuing advanced education in the liberal arts.

Through core courses and selected electives, students enrolled in the Master of Arts in Women's and Gender Studies will accomplish several objectives: examine theories concerning the social and historical constructions of gender; explore how gender identity and sexual orientation help define human relationships; recognize that women's lives have been under-represented in traditional disciplines and investigate previously neglected materials in order to identify women's as well as men's roles in cultural or social endeavors; study, compare, and evaluate an array of disciplinary perspectives on gender, including, but not limited to, cross-cultural, economic, sociological, historical, and literary perspectives; identify intersections of gender with race, class, age, sexual identity, and ethnicity, both locally and globally, both in the present and in the past; and employ new methodological and critical approaches to materials customarily treated in other ways, revising the content and assumptions of particular disciplines to address gender and related issues more effectively.

Only graduate courses (course numbers 5000 or above) will apply to a graduate degree, even if the undergraduate course number (4999 or less) is listed. No exceptions will be made.

The M.A. in Women's and Gender Studies has 2 tracks: thesis and applied (non-thesis). The thesis track requires a minimum of 31 semester hours of study; the non-thesis applied track requires a minimum of 32 hours: 15 hours of 6000-level course work, including 6 hours of WGS 6299 is required for the thesis option; 12 hours of 6000-level course work is required for the applied option. Additional non-program hours may be required if courses on a student’s program of study have prerequisites which instructors choose not to waive.

Successful completion of an activism portfolio is required for both tracks. The Applied Track requires a culminating 120-hour internship project and research paper, which is supervised by two WGS faculty members and an internship site supervisor. The project may take a wide variety of forms, but it should meet the following 3 requirements:
1) shows evidence of theoretically informed and self-reflexive praxis;
2) shows evidence of knowledge and research skills appropriate to the project; and 3) is related to the student’s focus area.
